Subject: RE: AllenCo - St. James Lease Activity

All:

During a routine inspection on Friday, September 13, 2019, DOGGR discovered a small gas leak on one of the well heads at AllenCo Energy. Initial attempts by AllenCo to stop the leak were unsuccessful Friday afternoon. AllenCo has stated they will need to bleed the gas pressure off the well before they can successfully repair the leak. AllenCo monitored the well over the weekend and DOGGR reinspected the well this morning and observed no change in the leak. AllenCo stated they will need to start the gas turbine generators to burn excess gas during the well bleed down. AllenCo is currently preparing their facility to perform this operation. DOGGR has reinforced its position that AllenCo must do everything necessary to make the well safe.

Please let me know if you have any question.

Chris McCullough
